Application for Liquor
License.

On the suggestion of Councilman W. J. Baccus, the council refused to accept the bonds of T. J. Flaherty, applicant for a liquor license at 830 Seventh street. The action was taken to crush the application for a license, as Baccus declared that it was under Flaherty's management that the Tavern, made famous by Jack London, became notorious.

On the recommendation of Commissioner of Public Health and Safety Fred C. Turner and License Inspector W. J. Franke, the council acted on liquor licenses as follows:
Transfer—D. Damonte, 501 Brush street, liquor store and bar, successor to G. Germaine. Granted.
Removal of location—J. L. Foster, 1542 San Pablo avenue, saloon. From No. 1568 San Pablo avenue. Granted.

city and all were more or less injured, one of the automobiles, No. 11, Himmann, who resides in Oakland, having a leg broken.

The driver of the car that struck Campbell's was a legless and armless man, who was driving by means of artificial limbs, and he is said to be from Stockton. He disappeared immediately after the collision.

Touring Car Crashes
Over Brink of Cliff

Two are dead and five injured as the result of an accident yesterday afternoon on the road leading from Half Moon Bay to San Mateo, when a heavy touring car plunged through a fence guarding the road and rolled over and over down the cliff, spilling its occupants out as it went.

THE DEAD.
Mrs. J. E. Kendrick, 5823 Colby street, Oakland, killed.
Gerald Perrin, 6 years old, 944 Central avenue, San Francisco, fatally hurt, dies in hospital.**THE INJURED.**
J. E. Kendrick, scalp wound, lacerations and bruises.
R. G. Perrin, 944 Central avenue, San Francisco, badly bruised and cut.Mrs. Mary Perrin, mother of R. G. Perrin, limbs wrenched and ankle sprained.
Miss Irma Perrin, severe lacerations.
C. A. Perrin, scalp wound, cuts and bruises.Gerald Perrin, aged 5 years, left shoulder broken and possible fracture of the skull.
Eugene Kendrick, aged 5 years, fracture of the skull and broken collar bone; may die.

Mrs. Kendrick was almost instantly killed, her head striking the ground violently. Five-year-old Gerald Perrin brother of R. G. Perrin, was picked up unconscious with a fractured skull. He died several hours later at the Red Cross Hospital at San Mateo.

ONE MORE MAY DIE.

Four-year-old Eugene Kendrick was still comatose at the Red Cross Hospital this morning and it was feared that he also will die. Mrs. Charles Mann, sister of the woman who was killed, left for San Mateo today to assist in caring for the injured.

The party started out from San Francisco yesterday morning in Perrin's car for an all day trip down the peninsula. Perrin is agent for the Detroit Electric company, but was driving a big seven-passenger Pope-Hartford.

The party went through Halfmoon Bay in the morning and down to Purisima, returning through Halfmoon Bay again in the afternoon.

DID NOT MAKE TURN.

The accident happened not far from the latter place when the car was traveling at a fast clip. Apparently Perrin did not realize the speed at which the car was traveling and the sharpness of the bend along the edge of the ravine, and he did not make the quick enough and the machine crashed through the fence.

Mrs. Perrin and her daughter were thrown out back of the automobile, started rolling over the edge of the ravine, and to this fact they probably owe their lives.

A number of tourists arrived at the scene in a few moments. They could hear the moans of the injured, who were strewn along the edge of the cliff.

The gulch into which the car fell narrows down to a V shape and a few feet from the ground the car jammed and came to a stop, preventing the heavy touring car from crushing those who fell under it.

GO FOR ASSISTANCE.

R. G. Perrin, who had been driving the car, got into a passing automobile and was taken directly to Byrne's store, a half way house between San Mateo and Halfmoon Bay, two miles from the scene of the accident. There he telephoned for assistance to the central emergency hospital in San Francisco and the Red Cross Hospital at San Mateo. An ambulance was started from San Francisco, but auto from the Red Cross Hospital arrived on the scene first, carrying Drs. W. C. Chidester, N. D. Morrison and Wood C. B.

They took the injured people to the Red Cross Hospital. Gerald Perrin had an arm and leg broken, scalp wounds and internal injuries. He was operated on but died at 8 o'clock at the hospital. The body of Mrs. Kendrick was taken to Halfmoon Bay by Deputy Coroner William Francis of that place.

A feature of the rescue of the unfortunate party today is the fact that the first man to reach them, David Wilson of San Mateo, was also the first man to carry a victim to a hospital. Wilson, who was also the driver of the first automobile accident in which four persons were hurt, was with a machine, owned and driven by Charles E. Goss, was crowded off the Crystal Springs highway at a point about two miles from where yesterday's accident occurred.

Street Car and Auto
Meet in Collision

James Prescho, a retired capitalist, living at 1806 Tenth avenue, East Oakland, was injured with four others yesterday afternoon when the automobile which he was driving struck a west-bound Oakland Traction car at West Fourteenth and Chambers streets, Berkeley.

The front fender of the car and the steps on the north side were demolished by the impact and the occupants of the automobile were all hurled from the wrecked machine.

THE INJURED.
James Prescho, 70 years of age, 1806 Tenth avenue, concussion of the brain, three bad scalp wounds, contused leg and lacerated right leg.

Miss Helen Prescho, his niece, 26 years old; left eye badly cut by flying glass.

Joseph Cross, 18 years old, 244 Spruce street, San Francisco; lacerated scalp and left hand badly lacerated.

Miss Edith Cooley, Cloverdale, both eyes injured by breaking of her glasses; may lose sight in right eye.

Miss Mabel Young, San Jose; chest crushed and right elbow sprained.

Passers by hurried to the assistance of the victims. Prescho was taken to the Receiving Hospital in an automobile. The other three were taken to the most seriously injured of all. He suffered concussion of the brain and numerous cuts and bruises about the body.

Miss Prescho, Cross, Miss Cooley and Miss Young were taken to the Receiving Hospital by an automobile party headed by George Baker of 671 Fifth street. Their injuries were taken at attention by Dr. W. A. White, superintendent of the hospital.

Prescho and his party had been running with friends in East Oakland and afterward had started for a spin along the Fourth Street boulevard to Berkeley. The automobile was driven by Prescho, who was a well-known business man in the city.

As Prescho started to turn into East

Fourteenth street, headed for San Leandro, car No. 312 approached them in charge of Motorman L. F. Farnsworth and Conductor W. J. Petersen. Beside the car and coming at about the same rate of speed, was an automobile driven by S. M. Farnsworth, 2609 Ashby avenue.

Prescho, according to M. O'Sullivan of 432 Walsworth avenue, who was standing on the sidewalk, tried to dash between the street car and Farnsworth's automobile.

The result was a collision with the street car and a shock which hurled out all the occupants of the automobile.

PLACE BLAME ON PRESCHO.

James P. Potter, assistant general manager of the San Francisco-Oakland Terminal Company, and Joseph Wagner of the claims department, went to the scene in an automobile, rendering service in caring for the injured.

According to statements by O'Sullivan the blame for the accident rests on Prescho, who was driving the wrecked automobile, said Potter. "The statements of O'Sullivan are corroborated by the motorman," said Potter. "He was not traveling faster than eight miles an hour and was brought to a stop immediately."

Prescho either tried to drive between the street car and the other automobile or was attempting to cross the track ahead of the car. At any rate the blame rests on Prescho, so far as I am able to ascertain. The motorman could not possibly avoid the collision after Prescho rounded the corner of Cambridge street, where the car was wrecked before Farnsworth could apply his brakes. He stopped within a few feet."

Dr. M. E. Clark, who treated Prescho in the Receiving Hospital, gave it as his opinion that the man would recover, though the outcome is doubtful because of his age. He was removed to his residence from the Receiving Hospital this morning and placed under the care of a trained nurse.

Kane, 917 Central avenue, San Francisco, suffered a broken leg; Mrs. J. Guerini, 783 First avenue, Point Richmond, had a knee broken, and Mrs. A. Magan, also of Point Richmond, had a leg broken, when a street car en route to the barns crashed into their hotel auto-bus at Fourth street and Central avenue at 1 o'clock yesterday morning.

Bert Smith, driver of the bus, was badly hurt, but escaped from the scene. The police are looking for him as it is alleged that he was partly to blame for trying to cut corners.

Mrs. Reichart, who was the widow of the vice-president of the Pacific Mutual Life Company, with headquarters at San Francisco, was on her way to visit Mrs. Patrick Sheady, wife of the superintendent of motive power of the Southern Pacific. The others were here to attend the State convention of the Ancient Order of Hibernians.

The bus was completely demolished. The body of Mrs. Reichart is held at a local undertaking parlor awaiting relatives from San Francisco.

Merritt Effe of 2014 Emerson street, Berkeley, and C. J. McClure, 2558 San Pablo avenue, Oakland, narrowly escaped serious injury yesterday when a tandem motorcycle which they were riding collided head-on with an automobile on Claremont avenue, driven by M. Ballen of 246 Magnolia avenue, Berkeley. McClure, who occupied the front seat, was thrown in the street and sustained a broken collarbone, while Effe escaped with a few minor bruises. McClure was removed to his home in an automobile. Passersby said that the motorcycle was going close to thirty miles an hour when the smashup occurred.

in Long War of
Words.**SAN FRANCISCO, Aug. 19.**—Superior Judge Graham's courtroom was the scene of a near-riot at 10:30 this morning when Mrs. Hanna Marks, who, it is claimed, was railroaded to an insane asylum, appeared in connection with three applications for her guardianship. There were nearly 100 interested persons of the Cherrita Gillen Synagogue and the Hebrew Civic League.

It is a week ago since F. Krame, president of the synagogue, asked to be appointed guardian, charging that Mrs. Marks was sane and that she had willfully been confined in the Napa asylum. On Saturday M. Farnber of the Hebrew Civic League asked to be appointed and the husband and a son, Louis Marks, are also anxious to gain control of the woman's affairs.

Since litigation commenced Mrs. Marks has been removed from the asylum to a home in Fruitvale. Daniel Marks, a Fruitvale merchant and morning, was also in attendance this morning. When the court was called to the stand and was asked a few questions, her son Louis stepped forward and asked if he could say a word.

ACCUSES FATHER.

He was allowed to speak and promptly accused his father of sending the mother to the asylum without cause. Then pandemonium broke loose. The interested spectators on both sides arose and all attempted to speak at once. The husband denied the accusation and cried that they were after his money.

"It's a wonder you wouldn't give her enough to eat," some one shouted. "The woman is sane," called another.

"Liar and thief" were heard on every hand and the court finally repeated for order.

BAILIFF IS POWERLESS.

The bailiff was powerless against the mob who sought to shake hands with Mrs. Marks and lay hands upon her spouse. Finally the aged woman and the immediate participants in the affair were forced to take refuge in the judge's chamber, where Mrs. Marks was attended by her daughter, Mrs. Jessie Greenfield.

The crowd remained in the corridor a long time awaiting the appearance of the principals in the affair, but finally disbanded, enabling Mrs. Marks to start on a return trip home. The court meantime continued the case, but in order to give the father and son an opportunity to apply for letters of guardianship. Marks is reputed to be worth about \$50,000. There are half a dozen attorneys retained in the case.

Inaugurating a new industry between local wharves and Fort Bragg, the lumber carrier Brunswick, Captain Wahlgren, arrived here this morning from Fort Bragg, bringing a small lumber cargo of 1000 sacks sawdust. The sawdust cargo of the Brunswick is the first of its kind to be landed at this port. In times past the sawdust which was piled up by the various lumber mills was regarded as useless and was thrown away.

Now, however, the sawdust is prepared for the packing of eggs, grapes and other products of delicate nature raised in this State which are shipped east by the French ship Berengere, Captain Cioatre, this morning tied up at a berth at Long wharf, after her arrival from San Francisco. After discharging a cargo she will load barley for the United Kingdom. She has been chartered by the United States Lumber company and will be one of the first sailings to begin operating on the outgoing line, but the question of securing bottoms to carry this California crop being one which is causing considerable annoyance to shippers at present. The barley crop this year is something over 600,000 tons against 50,000 tons last year. According to coast marine men, the majority of the bottom carrying this crop will be those flying foreign flags, as there are practically no United States merchantmen on the Pacific which are at present disengaged.

Church.**EMBLETON, Northumberland, Aug. 19.**—A party of enterprising suffragettes waylaid and held up Sir Edward Grey, the British secretary of state for foreign affairs, while he was leaving church yesterday, and engaged him in a warm argument on the question of woman suffrage. Sir Edward at first said:

"I refuse to discuss the question with you here," but the women declared that the opportunity for discussion had been denied elsewhere.

Sir Edward refused to receive a delegation of these women, whereupon one of them demanded:

"How dare you betray the women's cause by allowing the reform bill to be drafted to include men only?"

Sir Edward replied that he had put down an amendment to the bill giving women also the suffrage.

"You know that amendment was of no use," a woman shouted.

Sir Edward replied: "You know nothing about parliamentary procedure or you would not say that."

After further argument Sir Edward succeeded in reaching his motor, in which he dashed from the scene.

HEIR TO STANFORD
MONEY IS KILLED**Daniel Shields Gunning Jumps**
From Fourth Story
Window.**BOSTON, Aug. 19.**—Daniel Shields Gunning of New York, twenty-three years old, a grandnephew of the late Mrs. Leland Stanford, who left him a fortune, and nephew of Colonel G. P. Lawton of New York, killed himself here yesterday by leaping from a fourth-story window of a local hotel.

He arrived here with a cousin, Daniel L. Lawton of New York, on a motor trip to Saratoga Springs. He was taken ill last night, but seemed so much improved at noon that Lawton and his valet went to the dining room, leaving Gunning alone.

A maid opened the door and Gunning, clad only in his night clothes, leaped from the bed, dashed out the door and leaped from a window at the end of the corridor. He is supposed to have been momentarily demented.

The maid ran, screaming, from the room into the hallway and met Lawton, who asked her what was the matter.

A young man has just jumped out of the window in room 326," she cried, hysterically. Lawton stood, stunned, for an instant and then rushed into the apartment.

BODY IS DISCOVERED.

He looked into Gunning's room and saw the vacant bed, and stared out of the window and saw the unfortunate youth lying prone on the pavement below.

Gunning's cousin, who was just about his own age, was in a pitiable condition of grief.

Mr. Gunning has suffered such attacks a long time. I am sure he did not know what he was doing—merely rushed blindly to his death. On Saturday he seemed in good health, but had an attack during the night."

Gunning was a younger executive society set in New York, Boston and Philadelphia. His parents left him a fortune of \$200,000, which was augmented by the bequest from Mrs. Leland Stanford of \$250,000 more which he was to have inherited when he was 25 years old.

On attaining his majority the young man gave a dinner at the United States Hotel in Saratoga to a few friends, and left \$1,000

GANG OF BURGLARS AT WORK IN CITY

Police Asked to Investigate
Five Crimes of Last
Two Days.

The police have been asked to investigate five burglaries reported to have occurred Saturday and Sunday night. It is believed that a gang of professional crooks is operating in the city, and every effort is being made by the detective bureau to round up the gang and put a stop to the thefts.

J. J. Bullock, 1433 First avenue, reported his home entered by burglars, who forced open the bathroom window and ransacked the house, taking jewelry and silverware valued at \$250. The burglary was committed during the past two days, as Bullock has been away from home. The thieves apparently obtained information of his absence and took advantage of the absence of the family from home.

Miss Louisa Brown, 1315 Elbert street, reported her home entered by burglars, who used a skeleton key to force the side door. A gold watch, gold neck chain with gold slide set with opals, and an Eastern Star pin were stolen.

J. J. Smith, 2632 Chestnut street, was robbed by burglars, who smashed a pane of glass over the window catch, opened the window and gained entrance to the house. Several small pieces of jewelry and \$12 in coin were taken.

Mrs. Elizabeth Bettencourt, 1440 Ninety-sixth avenue, reported the theft of \$10 in gold from her pocket by street thieves while she was in a crowd in Broadway on her way to a car.

J. W. Baker, 201 Athol avenue, reported to the police yesterday the burglary of his home and the loss of jewelry valued at \$630. Among the jewelry were two diamond set rings, chain and pendant and two diamond and ruby set pins. The burglars forced a rear door.

D. S. Lincoln, 1394 Eighth street, reported that some one had opened the door of his aviary and turned loose forty-five chow birds, valued at \$100. He believes it was spitework, as the aviary has been opened before.

A. C. Palm, employee of the Broadway Theater, reported that the storeroom of the theater had been entered and moving picture equipment valued at \$50 stolen.

GLASS-EYE REFORM TRIED AT FOLSOM

Officials Increase Self-Respect
in Prisoners, Hoping to
Better Natures.

SACRAMENTO, Aug. 19.—In furtherance of his theory that measures for the betterment of prisoners should be tried, beginning with physical conditions, Warden Johnson of Folsom penitentiary, had thirty-five prisoners examined by specialists yesterday.

The specialists who worked over the prisoners were Dr. G. R. Brice of San Francisco and Dr. George Briggs of Sacramento. Twenty-five men were examined for eye, four for ear, two for nasal and one for throat trouble.

"Take" Oppenheimer, the noted criminal, who is under sentence of death, was one of the twenty-five examined for his eyes, and as a result Oppenheimer will be fitted with a pair of glasses.

Warden Johnson said that Oppenheimer was much pleased over the decision, as the condemned man has been very studious, devoting long hours to both reading and writing.

Oppenheimer's chief attention has been given lately to the preparation of a book entitled "The Thought of a Condemned Man," and his vision has been much impaired.

Another prisoner will be fitted with an artificial eye. This will be given him on the theory that anything which improves a prisoner's looks will heighten his self-respect, and therefore tend to make him more amenable to efforts for his reform.

Charles Carson, the condemned convict, who has not spoken for three years, and who is under sentence until September 20, for further observation in determination of his sanity, was examined today for throat trouble.

In his case the specialist used the laryngoscope, thrusting it into his throat to test the soundness of his vocal organs, to determine whether his failure to speak is due to physical cause or whether it is simply a case of voluntary mutism.

MURDERER SENT TO CELL FOR LIFE

Slayer of George W. Pennington Pleads Guilty to Charge.

SAN FRANCISCO, Aug. 19.—With the understanding that he should be given a sentence of life imprisonment in the penitentiary, Edward W. Stansbury, a grave-digger, pleaded guilty to a charge of murder in Department 11 of the Superior Court today. On April 30 Stansbury shot and killed George W. Pennington, secretary of the Odd Fellows Cemetery Association.

Pennington had reported Stansbury for not properly attending to his work, for becoming intoxicated and had finally discharged him on the day the crime was committed.

Stansbury returned and killed his employer. The evidence of other occupants of the office at the cemetery was complete and Stansbury, after consulting his attorneys, thought it best to plead guilty instead of taking chances of being convicted and perhaps sentenced to the death penalty.

LUETTA SMITH VISITS DR. BURKE

Convict Physician Refuses to
Talk to Woman and
Child.

SAN QUENTIN, Aug. 19.—Dr. Willard P. Burke, recently head of Burke's Sanitarium, Santa Rosa, now serving a long term in San Quentin penitentiary for dynamiting, had two unexpected visitors yesterday.

Luetta Smith and her child, Willard, whom she says is the son of Dr. Burke, called. Dr. Burke took one look at them and fled back to his cell. Nothing would entice him out of it.

More than two years ago Miss Smith was a patient at the Burke Sanitarium. The tent in which she lived with her baby was dynamited and after a long trial Dr. Burke was convicted of the crime.

Since then Miss Smith has been many times in financial distress while residing in Berkeley. For several months she has been making appeals to Dr. Burke to save his child from starvation. Her appeals have been spurned.

Without warning Miss Smith went to San Quentin yesterday. The young boy trotted by her side. She sat down in the Captain's office and asked for Dr. Burke, not giving her name.

After he had appeared, had discovered who the callers were and had rushed away, Miss Smith sent messengers after message to him. When he did not reply she wrote a letter telling him that she was sick and in want and without means to clothe and feed the child. She begged him to feed the boy even though he would not do anything for her. Burke has not replied.

FISH RETURNED TO THEIR ELEMENT

Horses Run Away, Start Geyser and Spill Finny Ones Into Stream.

SAN FRANCISCO, Aug. 19.—One hundred fish, large and small, which were being hauled in an auto truck by Apollio Paladini, were treated to an unexpected swim, the pedestrians along Kearney street, were given an exhibition of a 40-foot geyser and a river was formed on Sacramento street a distance of four blocks when the machine ran away at 10 o'clock this morning.

Paladini had stopped at 706 Sacramento street, the brake failed to hold and the heavy truck started down the hill, crashing into a fire hydrant, breaking it off and sending a stream of water 40 feet into the air.

The machine was overturned and the fish were soon floating down the thoroughfare in a raging torrent. A large crowd gathered to watch the stream and it was half an hour later before the supply was turned off and traffic resumed on the street.

Gunther was found lying unconscious in his bed by his wife Saturday morning. When taken to the Good Samaritan hospital the surgeons diagnosed his coma as due to a blood clot on the brain, producing paralysis. He gradually lost strength and died without rallying.

The management of the store has demanded a thorough investigation of Gunther's actions on the night preceding the injury. Where he received the blow that caused his death is a mystery.

ELMHURST LINES UP FOR CONGRESSMAN KNOWLAND

Club Organized, Officers Elected and Candidate Praised in Resolutions

ELMHURST, Aug. 19.—Active work on behalf of the candidacy of Congressman Joseph R. Knowland for re-election and re-election as the representative of Alameda county was begun in Elmhurst on Saturday night with the organization of the Knowland-to-Win club of Elmhurst. Both men and women took active interest in the preliminary plans for carrying the district at the nominating election on September 3 and the following officers were elected: Frank E. Storrier, president; J. E. Hood, vice-president, and H. J. Collins, secretary.

The following were selected as honorary vice-presidents: E. W. Eckhardt, Philip Reddy, John R. Preston, C. A. Rudolph, George J. Dunagan, Harry F. Chase, Joseph Myers, F. J. Morris, C. M. Cooper, Mrs. C. A. Rudolph, Mrs. May Frost, Mrs. C. A. Rudolph, Mrs. E. G. Maxwell, Mrs. May J. Cruz, Mrs. Frank Storrier, Mrs. R. W. Tunt, Mrs. H. J. Collins, Mrs. Philip Reddy and Mrs. R. E. Woods.

RESOLUTIONS PASSED.

At the meeting held Saturday night, the following resolutions were passed: The Knowland-to-Win club of Elmhurst, composed of citizens of all shades of political belief, enthusiastically endorse the candidacy of Congressman Joseph R. Knowland for re-election from this district as Representative in the National House of Congress.

We endorse him because we know him, because we are familiar with his work, because we are proud of his record. For fourteen years he has been the representative of this district in legislative matters—first as an Assemblyman, then as State Senator and later as Congressman. In all his public career he has shown a measure of care and vote for which any of his constituents have felt called upon to apologize or explain. In the archives of the California Legislature at Sacramento and the House of Representatives at Washington the most critical of his opponents can search in vain for one single item in his record that is not to his credit.

One of the youngest men in California ever sent to Congress, he has proved himself able to cope with the rigors of long service. From the day he took his seat in the National law-making body in 1904 he has advanced steadily in prominence and influence until today he stands in the front rank of the 400 men whose duty it is to safeguard the interests of the people.

For the development of the magnificent waterfront of Oakland harbor Mr. Knowland has secured governmental appropriations amounting to \$400,000, which amount is larger by the same purpose in the same period of time by any former Congressional representative.

INTERESTS AGAINST HIM.

When the location of the Panama-Pacific International Exposition was being considered and powerful interests were enlisted to direct it to a section far distant from this coast, Mr. Knowland gave long, constant and untiring support to the major interest, which was to direct it to the city of San Francisco. His influence as any other man, in Congress or out of it, to roll up the vote by which the great fair was given to San Francisco, is a fact that is a complete success after consideration will be solicited from the National Government, and if the loyal citizens of San Francisco are returned to his position to obtain all that may be required by the Exposition officials.

His successful efforts for free tolls through the Panama Canal has endeared him to the commercial interests of the entire Pacific coast.

His work in obtaining appropriations for public buildings has won him the friendship of many elements in Oakland, Alameda and Berkeley.

His stand in support of liberal pensions has brought to him the gratitude of the veteran defenders of our glorious flag.

His early efforts for equal suffrage are still remembered by the women of California.

His entire record appeals to every man and woman who appreciate faithful service among faithful officials.

We, therefore, pledge our best efforts for the return of Joseph R. Knowland to Congress.

WOMEN TO GREET HIM.

Among the prominent clubwomen to take part in the big luncheon at the Elmhurst which will be given tomorrow noon under the auspices of the Joseph R. Knowland Commercial League, in honor of the representative, will be Mrs. Cora E. Jones and Miss Grace Trevor. Other women prominent in the organization, which has a membership of 1300, and is growing rapidly, are Mrs. J. R. Farrell, Mrs. C. J. Woodbury, Miss E. S. Vance and many others.

Arrangements for the luncheon have been completed and invitations are being sent out. Many acceptances have already been received, and from indications Knowland will be given a royal reception when he is introduced to the gathering by Mayor Frank K. Mott on his first day in the legislature.

It is realized by the business and professional men and women of the city who are eligible to membership in the league that Knowland's record in the house of representatives has been such that he is entitled to the suffrage of his district and they will work hard to have him returned by a splendid majority.

As a great many calls are being received concerning the luncheon as to the manner of securing reservations the committee who have the same in hand said today that Knowland's friends are all invited, the invitation being general, and as the seating capacity is limited the committee will make reservations only up to 10 a. m. Tuesday, or until all are taken. These can be secured by calling up Oakland 5413, or calling at headquarters, 927 Broadway.

NEWPORT, Aug. 19.—The robbery of Honeycuck Lodge, the beautiful residence of Mr. and Mrs. T. Suffern Tailor, has created a great deal of excitement in Newport. A few hours after the theft was discovered the stolen articles were recovered, and it was evident the culprits were scared away before it was possible to hide their theft.

During the season the Tailors have entertained extensively and are prominent in Newport social circles. Mrs. Tailor was Miss Harriet Brown of Baltimore before her marriage. She is a crack shot with a revolver, and regrets that she did not have an opportunity to take a shot at the robbers.

MONSTER CROWDS THROG BIG PARK

New Vaudeville Bill Proves a Great Drawing Card at Idora Park.

Warm summer sunshine and a delightfully cool evening served to send two monster crowds to Idora Park yesterday, and the new open-air vaudeville bill furnished satisfying entertainment to the joyous thousands who happily elected Idora as the place to spend their day of rest. The two vaudeville innovations at Idora has caught the public fancy and long before the time for the first show to start, the roomy amphitheatre was well filled.

The bill was carefully chosen with a view of pleasing the park patrons. Admission was distributed over many of the acts running from the beautiful and classic poses of the snow-white Shetland pony Jupiter and his trainer, Miss May Prentiss, to the antics of these comedy gymnasts, the Aive troupe.

The Lessos, called Australia's greatest jugglers, were the opening number, and her dexterity exhibited by the male members of the troupe was marvelous. As a rule, all jugglers display somewhat the same stunts. The Lessos are nothing if not original, the juggling of a heavy kitchen table and of an iron cannon ball being particularly clever.

JUPITER POSES.

The children fell in love with the beautiful little Shetland pony, Jupiter. A pair of plush curtains are drawn aside, revealing Jupiter in a series of poses modeled after famous paintings and works of statuary. His ability to keep still while on view is marvelous and the clever equine was loudly applauded.

Madame Lloyd is without a doubt one of the best vocalists heard at Idora Park since the departure of the Lombard Grand Opera Company last season. Her voice, while of an exceptionally sweet quality, is well adapted to the trying outdoor work and her selection of songs was particularly pleasing.

The fun on the new program was furnished by the Aive troupe, who perform on the horizontal bars with the agility of monkeys and cut enough monkey-shine to keep the kids and also the grown-ups in roars of laughter.

Marta Golden, who is the only hold-over on the bill, appears in a new act, and one which suits her style of work much better than the act of last week. She delivers a playlet and sings in her own charming way, giving a number of extremely clever imitations of well-known stage celebrities.

The program this week is exceptionally good and is well worth a trip to Idora. Then, of course, there is the constant lure of the innumerable joy rides and fun devices which dot the grounds at Idora's favorite amusement place.

VESSEL IS CRIPPLED BY MONSTER WHALE

SEATTLE, Aug. 19.—Its port side stove in, a rib broken, the electric dynamo put out of commission and the vessel completely disabled for a time, is what happened to the San Francisco steam whaler Tye, Captain Shaw, when a monster Alaska sperm whale rammed it three times in quick succession as an evidence of its displeasure and anger at being gun-harpooned. Particulars of the deep sea engagement, which took place ten days ago off Whale Bay, Baranoff Island, were brought yesterday by Captain Howard Bullen of the steamer Santa Ana, in from Southeastern Alaska. The whale, the Tye's crew estimated, was over 100 feet long.

MOTHER OF MRS. LEHNHARDT DIES

Mrs. Sophie Marcus, Pioneer of State, Passes Away, Aged 84 Years.

The funeral of Mrs. Sophie Marcus, pioneer of California and for many years a resident of this city, who died last Saturday at the home of her daughter, Mrs. Emil Lehnhardt, 1103 Telegraph avenue, will be held tomorrow morning from the residence.

During the past ten years the decedent had made her home with Mrs. Lehnhardt. Mrs. Marcus had settled here with her late husband Henry Marcus, a merchant of San Francisco and Gilroy, having made the passage around the Horn in early days. She had lived in San Francisco and Oakland for nearly half a century.

Mrs. Marcus was born in Hamburg, Germany, eighty-four years ago. Her girlhood was passed in the old country where she received her education. Devoted to her family, Mrs. Marcus displayed great interest in social life but was always ready to help the needy and watched Oakland's progress.

Legions of friends mourn their loss with the members of the immediate family. Mrs. Marcus is survived by three daughters, Mrs. Emil Lehnhardt, Mrs. A. Wiener and Mrs. W. S. Earp. She had one son, the late Nathan Marcus.

The body will be buried in the Hills of Rectory cemetery, San Mateo county, in a private interment.

BACON LOSES \$10,880 SUIT

After Four Years Action for Damages Is Decided Against Him.

After four years of litigation in the local courts, Frank P. Bacon has lost his suit for \$10,880 damages against his two sisters, Ella E. Bacon and Carrie J. Bacon, upon appeal of the case to the Appellate Court. Superior Judge Harris was notified of the ruling today. The suit was brought by Bacon over the estate of his father, Hezekiah Bacon, who died in 1908, and the home valued at \$13,000 as part of his share. Later the sisters were alleged to have dismantled the place to the extent of \$10,880. Judge Harris decided against Bacon after four complaints had been filed without giving him leave to amend and the case was then appealed with the result that Judge Harris was sustained.

INSPECTOR FREED FROM ALL CHARGES

Peter Anderson Exonerated in City Electrician's Report.

Exonerating Pete Anderson, chief electrical inspector from the charges of discrimination and favoritism, City Electrician George Babcock who has been engaged with a number of experts in going over the jobs inspected by Anderson, and complained of by certain firms, filed his report with Commissioner of Public Health and Safety Fred C. Turner today. The report of the charges against Anderson brought by George H. King and others was continued for further hearing to September 5.

As a result of the findings of Babcock with regard to the charges of incompetence, Turner today asked City Attorney Woodman to prepare an ordinance increasing the force in the electrical inspection department. Babcock's report shows that this is due to too much work being piled upon the office force. Turner will ask to add in prior and a call to the present staff.

Babcock's report is summarized as follows:

In regard to the complaints filed August 14 by four electrical contractors concerning the conduct of the electrical inspection bureau and referred to me personally, I have the following to report:

Incompetence in Office Methods.—I find the condition of the office verified by this complaint. Concerning the latter, I found time on the installation of old standard wire fifty days longer than that of the underwriters. I consider the difference between the two grades of wire too small to make extension of consequence. The difference in method of inspecting is difficult to overcome and can only be accomplished by the use of the most efficient office executives.

Favoritism and Discrimination.—I found nothing to indicate that the power companies were intentionally avoiding the ordinance. I found nothing to prove that certain privileges were extended to contractors although they appear to have been given temporary permits to power companies is the cause of two thirds of the present trouble and the lack of sufficient help to handle the work properly has aggravated conditions. As to Anderson having full knowledge of these circumstances, it is my opinion that they were over-

In conclusion, I wish to emphasize that nearly all of this complaint is the result of lax office methods combined with insufficient help and recommendation that prompt action be taken in this matter.

CAMDEN HEIRS TO GET \$100,000

Will of Late Capitalist Gives Bulk of Estate to Daughters.

Disposing of an estate valued at more than \$100,000 the will of the late Charles Camden who died August 10 at the age of 93 years was filed for probate today.

In a codicil written shortly before his death Camden stated that he had provided during his life for his wife, Henrietta E. Clark of Long Island. The will, which was drawn in the deceased's own handwriting, provided that the bulk of the estate was to be given to his two daughters.

The estate consists of Shasta county property, including a mining land, with irrigation rights in Kern and San Diego counties, together with valuable securities.

A daughter, Grace, was bequeathed a home in Shasta county by her father, who gave it in consideration of her having cared for him during his old age. She will receive \$50,000.

The other heirs are Ida R. Purser of Oxnard, Charles Camden of Red Bluff, England, C. J. Wetmore of 825 Tenth street, and Philena Wetmore, 825 Tenth street, Oakland.

The main Blue army broke camp at San Jose at 4 o'clock and moved south, four companies of infantry marching in advance with mounted scouts scattered ahead of them. Precautions were taken against ambush. It is expected that tomorrow the day on which the war game ends will be one of hard fighting.

About 2000 men will be engaged in the deciding battle, but, theoretically, 20,000 troops will be on the field.

New Yorkers Dodge Church, Is Complaint

NEW YORK, Aug. 19.—According to New York religious publications the complaint is general among Christian workers in New York that never with recollection has the interest in church matters been so slight or the attendance so small as this summer.

The churches in New York are suffering from the apathy as much as their smaller neighbors. There were only twenty-six persons at one of the twenty and aristocratic up-town churches yesterday morning and only forty at another.

Water Wagons Quench Thirst of Paraders

LOUISVILLE, Aug. 19.—An innovation in parades was started here yesterday when a dozen water wagons were scattered at intervals in the parade of the American Federation of Catholic Societies.

The water wagon provided with a filled water tank and individual drinking cups in which water was carried draughts to participants and spectators. On account of the intense heat many of the marchers took advantage of the water supply to keep cool.

From the time a water wagon appeared the parade was a different affair. The marchers were kept cool and the spectators were kept happy.

TRAMP BEGINS BEFORE SUNRISE

Deciding Battle of the Mimic Campaign Will Soon Be in Progress.

MORGAN HILL, Cal., Aug. 19.—Three privates were wounded here today in the first actual casualties attending the invasion of San Francisco by the "red" army of invasion under General Robert Wankewski.

A clip of blank cartridges dropped from a soldier's belt into the right leg of a man who was lying on the ground, and he was thrown into the camp-fire and exploded. Private Harry Bailey was so badly hurt in the right leg that he was taken to the Presidio Hospital at Monterey. The others, wounded in the arms and legs, were able to continue with their comrades.

"She ministered to the wounded and dying with the gentleness and love of a tender mother, taking last messages from the lips of the dying for their loved ones, and securing parcels for the disabled that they might recover."

In her practice of medicine in advance of her time she recognized the greatest importance of the cure of disease, emphasizing the great value of right and simple living for the highest attainment of health. Only those intimately acquainted with her realized fully the strength and breadth of her character. She judged people by their best and not by their worst, thereby inspiring them to do their best. She loved all children. Music was a joy to her. By nature a student there was scarcely a branch of study she did not know something about which she was not well informed. Animals and plants, as well as human beings, she cared for as friends. We must not forget to mention that her studies the stars claimed much attention, and there was scarcely a constellation visible in our part of the universe that she did not know. Whatever she undertook she pursued untiringly. In all she was constantly and enthusiastically in the campaign made by the Home club, for the establishing of the milk commission, which was not only the first in California, but first on the Pacific coast, to exclude tuberculosis from milk supply. Her entire motive in this campaign was to make life safer and surer for our children and invalids and at the same time to help to create in the public mind the need of a higher standard of the purity of milk for all people.

WORKED FOR CHILDREN.

"She was the president of the commission until it passed from the State Club to the Alameda County Medical Association. She was a director of the Mary R. Smith Trust from its beginning, and took a personal interest in each child. In her home she was a mother to the noble work so generously planned and carried out. The last few years of her life she took the keenest interest in the defective child. Appreciating and knowing as only the physician can the gross injustice done to the defective child through immoral parenthood, she worked with her whole soul for conditions that should help restore to the poor defrauded child the powers which by birthright he was entitled."

"Bravely and uncomplainingly she stood up against the loss of daylight which steadily advanced in the last few years of her life, knowing her interest in lines of betterment."

"Although Dr. Buckel was able after retiring from active practice to give more time to general matters outside of her regular profession, she had her heart set on life to watch for opportunities to lay foundations deep and strong for beneficial work. It was during her most strenuous days as a physician with a crowded home and a large family that she devoted her time to the attention of Oakland children."

The Alameda Society she founded and carried on to teach nature study to her young friends.

"Her Chautauqua Circle was for years an inspiration. Many excellent members recall the fine useful course on the foods of nations in connection with her Biology Section."

"With all of the serious work of her life she had a keen sense of humor and that added to her wide knowledge and good judgment, gave her a rare and delightful companion. Though not demonstrative, all that came within her influence felt her strong sympathy and genuine sincerity and with the deepest true friendliness she was an inspiration to all that came within her influence."

MOURN AT BIER OF 'LITTLE MAJOR'

Friends Gather at Simple Service in Memory of Late Dr. C. Annette Buckel.

FRIENDSHIP Aug. 19.—A host of loving friends thronged the residence of Mrs. Charlotte Plummer on Mountain avenue at 3 o'clock this afternoon to pay their last respects to Dr. C. Annette Buckel.

The casket and room were banked with exquisite floral offerings tokens of love from her many friends and about the casket. The impressive services were conducted by Rev. C. A. Nash, president of the Pacific Theological Seminary and intimate friend of Dr. Buckel at the conclusion of the service these pallbearers escorted the remains to the crematorium. Dr. Murray Johnson, Dr. G. H. Plummer, J. B. Richardson, Russell Whitman, C. D. Merrill and Walter Burpee.

The following appreciative article reviewing the life and accomplishments of Dr. Buckel has been contributed by an intimate friend:

Dr. C. Annette Buckel was unusually well equipped for her chosen profession not only on account of her thorough and extended training in medical schools at home and abroad and years of service as resident physician in the New England hospital, before she began private practice, but best of all, she possessed the selfless spirit which possessed her.

"That her life was indeed one of service combined with lofty idealism, courage and ability was well illustrated by her work during the civil war of 1861-64. With a commission from General Grant and a corps of nurses at her command, she helped to establish hospital accommodations along the line of March 80 ably was her work done that she won the name of 'Little Major' from the admiring officers and grateful soldiers."

The first of these is the fact that the Japanese have been able to maintain a high level of production and output in the face of the severe economic sanctions imposed by the United States and other countries. WHEELER GIVES ADVICE
TO INCOMING STUDENTSPresident Speaks at Opening Meeting of
State University

UNIVERSITY OF CALIFORNIA, Aug. 19.—Harmon Gymnasium was packed by the students for the beginning of the new term, today, to listen to the announcements and to the address by President Wheeler.

Dr. Wheeler said:

"Our numbers are growing. Last year the university had under its care, omitting the farm courses at Davis and correspondence courses in agriculture, 6200 students, and this year we shall have well over 7000. Up to Saturday night there were 1183 registrations for the Freshman class. The increase in graduate students is notable. One hundred and eighty new graduate students are already registered."

President Wheeler announced that a student's half hour will be set apart each morning when he will see students at his office whether they are in trouble or not, "preferably when they are not."

Students were urged to tell their names when they met the officers of the institutions, not counting upon an introduction at some Y. M. C. A. reception and also to speak to the members of the faculty on the street.

Students were further exhorted to make themselves acquainted with their advisors of the faculty and to join the associated students and the religious organizations connected with the university.

"NOT PRAYER SHOP."

"The Y. M. C. A. building," President Wheeler said, "is not a prayer shop. It is good to pray, but not necessary to have a particular place to pray. The Y. M. C. A. is a club house under a religious organization."

"I think it highly desirable that students should practice attendance upon church services. A man who attends feels himself a member of the community and has respect for himself."

"The man who is not a religious man is only half a man. Religion means back ground for the life. Being religious and having faith in God is an essential part of normal being. The man who is not religious is sick, diseased, incompetent, incomplete, on the way to degeneracy. The religious life is the only healthy life."

"Activities does not mean care for the body. Sitting on the bleachers and yelling for the team is exercise for the larynx, not for the body as a whole."

"Tennis, swimming, ball playing and other sports should be used. Freshmen can later elect sports in place of gymnasium drill."

"It is a bad thing for a man to smoke as a general thing until he is 21 years of age. I smoke, but did not begin until I was 21. The moment you begin to compromise your life inclines to a fall. If governed by high ideals, you are likely to rise. If satisfied with the world as you find it your life goes down and you will find true success. All nobility must consist in service."

FRESHMAN SPORT.

"The man who debauches sears his nervous system and can never get over it."

UNIVERSITY OF CALIFORNIA, Aug. 19.—Exposition of the department of hygiene, looking ultimately to the formation of courses leading to the degree of doctor of public health, marks the opening of the new semester at the university. Dr. John N. Force, who was recently appointed assistant professor of epidemiology, is to give the chief address in the department this year in the strictly public health courses.

One new course in hygiene is to be a professional one. Two new lower division courses with Dr. Force in charge will deal with communicable diseases prevalent in this state, with their control through individual and community endeavor and with the general problems of food, water, insect, contact and carrier control in their connection.

There will also be a course in child hygiene, primarily for teachers, but open to students specializing in hygiene. The branches will include causes and prevention of infant mortality, health supervision of school children and practical application of institutions. Dr. Force will lecture on public health organization and Dr. Wilbur A. Sawyer, director of the State hygienic laboratory, will conduct classes in research work in hygiene.

Statistics will be one of the subjects specially considered in a graduate course. Professor W. B. Herma, who is in charge of medical investigations for the State board of health, will give this course as well as a second one in rural health problem.

VICTIM OF PLANT

Former Park Commissioner
Lilienthal in Hospital With
Poison Oak.

BERKELEY, Aug. 19.—Suffering from poison oak, against which he waged so strenuous a warfare while park commissioner as to arouse the opposition of the city council and to lose his commission, Hugo H. Lilienthal is at Roosevelt hospital. He is attended by Dr. W. H. Brown.

Lilienthal contracted the poison several days ago while at work at gardening in this city. The attack seemed of little consequence at first but finally appeared so virulent that he was forced to give up his work. Yesterday his face and hands had swollen to twice their normal size and it was necessary for him to enter Roosevelt hospital for treatment.

The recently dissolved park commission Lilienthal was one of the first members. Several months ago he became energetic in his demands that the council take action to suppress poison oak in gardens and parks throughout the city. Soon after all the members resigned, declaring there was not sufficient funds allowed them to make their fight successful.

Later Lilienthal renewed his demand that the council fight the poison oak. He submitted a long list of names of children who contracted the poison locally. The council proved obstinate, however, and upon Lilienthal's more strenuous urging of his demands, dissolved the commission, thus causing him from his position.

ACADEMY READY
FOR RE-OPENING

Irvington School Expects In-
creased Enrollment
Tomorrow.

IRVINGTON, Aug. 19.—Irvington Academy, a military boarding school for boys conducted by Prof. W. W. Anderson, will reopen for the fall term tomorrow, following a vacation which began May 18. An increased enrollment is expected.

The academy, which is a military school, holds their annual military encampment, lasting one week, in the neighborhood of the school. The military instruction is in charge of Lieutenant Knowles of the United States army, who joined the faculty last year and is an admirer of boys and a promoter of activities beneficial to them. A man of means, he has shown a preference for the work of instructing and enjoying the association of youth. Lieutenant Knowles is a personal friend of the president of the new republic of China, having served as a United States regular soldier during the Boxer uprising several years ago.

In addition to military instruction as a feature of the school, a sloyd department will be conducted hereafter, a capable teacher having been engaged. Other members of the faculty, besides Prof. Anderson and Lieutenant Knowles, are H. Douglas, a new instructor, who has arrived from an eastern school; Rev. J. Anderson, a cousin of Prof. Anderson, and Prof. Otto Fleisner. The latter is head of the music department. Dr. L. S. Anderson, son of Prof. Anderson, is the school physician.

Prof. Anderson took charge of the academy ten years ago, and at once established an honor system and a form of self-government among the students.

Prof. Anderson is the State since graduation. The military instruction is not afforded as a means of drawing in subordinate youths to the school or for the sole purpose of discipline. The students insist on proper conduct among themselves and are making a success of the self-rule plan, which has been adopted at the University of California.

BISPHAM PLANS
GOOD PROGRAM

Will Sing for Berkeley School
Children and Tell of
Composers.

BERKELEY, Aug. 19.—The local musical season and the public school musical recital course will open simultaneously with the appearance of David Bispham, the famous American baritone. Wednesday afternoon, at 3:15 o'clock, at the Berkeley High School auditorium Bispham has arranged a most interesting program, which he will preface with a short talk regarding the composers represented therein.

Bispham came to San Francisco to sing the principal role in the Bohemian club play, "The Alchemist of Pan," the music of which was written by Henry Hadley. Although he had planned to give no public recitals on the coast this season, he was persuaded to open the young people's concert with a song recital next Wednesday afternoon.

The seating capacity of the auditorium is limited, but there will be a few adult season tickets put on sale at Tupper & Reed's music store on Center street. The following is the program:

"Like as the Sun's Bright Ray," Caldarera; "The Two Grenadiers," Schumann; "In a Room" (Son and Stranger), Mendelssohn; "The Evening Star" (Tanghauser), Wagner; "The Wedding Song," Carl Loewe; "The Montone," Cornelius; "When I Was Young" (Falstaff), Verdi; "Believe Me, If All Those Endearing Young Charms," Tom Moore; "The Pretty Creature," Storace.

REDUCE NUMBER
OF CHURCHES PLEA

Prof. John W. Buckham De-
clares There Are Too
Many.

BERKELEY, Aug. 19.—"There are too many churches today," said Prof. John W. Buckham of the Pacific Theological seminary in a sermon at the North Avenue Methodist church last evening, "and because there are too many they are weak. The consequence is a divided, distracted, weakened church. In the old fabric the bundle of sticks could not be broken but the sticks taken separately were easily broken."

"The bundle of sticks," continued Professor Buckham, "represents pretty much everything except the churches. Politicians, trusts, corporations, laboring men, farmers, sailors, all have come together in bundles and are hard to break — all except the voices of Him one of whose chief commands was that his followers should love one another." Professor Buckham did not advocate having one great, dominating church, but should include all the churches but favored all denominations coming together to ask what they can do in common and to cut off all the unnecessary churches. In many towns, he said, "there are too many churches. It is poor status-manship, poor churchmanship, poor economy, poor Christianity, having so many churches, poor small community. With a few churches, a strong Christendom, a better service and better music. Instead of a divided and inefficient church, we would have a strong Christendom, a better service, a better church of Christ. We must have love, must love each other more."

LONG CREED NOT NECESSARY

"It is important that we have a creed, but it is not important that we have a big creed. What we need are a few fundamental, simple truths that we can unite upon, and let the rest take care of themselves. We do not need to believe a great many things to be Christians. Only a few simple, vital things. Jesus Christ, God our Father, the kingdom of God, life eternal, these are a sufficient creed for a united church."

"Forms of worship and of government need not separate us. We have learned that all the early forms of church government have New Testament sanction. The best form is the form that works the best, that best accomplishes its end. Church union is making great progress in Canada and in different parts of this country. It is in the air."

The close of the sermon by Dr. Buckham was a prayer by E. Coffman, discussed briefly the local Albany situation where the Christian forces were described as divided into two camps that in some measure were competing and that had no common plan of campaign. The pastor of the Martin Avenue church attended service at the Baptist church yesterday afternoon, played the organ during the singing, and discussed with the leaders of the church the need of a closer union between the two Sunday schools and congregations.

During July there were 138 cases in all, and 25 deaths. In Los Angeles county there were 132 cases and 28 deaths. In June there were 31 cases and 5 deaths. HONOLULU, Aug. 19.—Private Albert Higgins of L troop, Fifth cavalry, died in convulsions Saturday night after eating canned sausage. Three other members of the troop are seriously ill, but are out of danger. The stuff was not part of the government ration, but had been purchased at one of the numerous Chinese shops established at Schofield barracks.

Private H. H. Norman, U. S. M. C., fell through the rotten bottom of a boat in this harbor last night and was fished out for dead. Some time after being worked over by companions he was revived and will recover. Norman falls from San Francisco.

SUNDAY SCHOOLS CLOSED.

MME. KALICH STAR OF ORPHEUM BILL

World Famous Actress Por-
trays Tempestuous Women
in Candle-Lighted Play.

(By LEO LEVY.)

Madame Bertha Kalich is engaged in the very pleasant and extremely arduous duty of portraying human and very feminine notions, traits, characteristics and feelings. Therefore, tagging her similarity and emotional action down an injustice to Mme. Kalich and puts the cult of the emotions on a high plane, where it doesn't belong.

Between the natural school of acting and the Kalich idea there is a difference. Your naturalistic actress will be herself, or someone else, with never a hint of staginess. But too strict attention to it all results in an incoherent, forced, certain results. She is too busy being natural to be human and although she portrays your fellows to perfection, there's never a trait nor a characteristic nor a notion that gets to the surface.

AN UNLOVELY STORY.

Mme. Kalich brings to the Orpheum, this week an unlovely story, "A Light From St. Agnes," a dramatized version of what might have been a successful short story or some other literary work. It is an unlovely playlet dealing with drunkenness, death and blasphemy; so unlovely, in fact, that repeating its story is a task to be shirked and it has its values and is never dreary.

It deals with persons of Louisiana, vice-stuffed persons who are in the death of a good woman, because that woman had pointed out the right road and pleaded with them to travel it. It opens with a scene in which a woman, Candle light clothes it until the blood-glutted Kerosene leaves the cabin in darkness and the rising sun is reflected by the stained glass windows on a convent.

Mme. Kalich is Toinette, a person of mixed blood of a character little known to most of us but of a temperament that emphasizes those human traits and notions that give the Kalich idea of acting an excellent sway.

You'll appreciate Mme. Kalich for being human and for her splendid doing and splendid Michel Kerosene. Also you'll probably ask for a play a little less gloom-soaked.

CRUISE OF "SNARK."

Marlin Johnson, who cruised for two years among the South Sea Islands with Jack London, on the "Snark," tells a colorful story of what, and who they found in unbroken peace on the globe. Johnson's lecture is a sermon on the benefits of civilization and is a maze of information to the same time.

Food for all of vandeville's children, up to it, is Chick Sale's idea of a clever person who is quick on the change and generous with personality. Ray Johnson and Harl Johnson, also, an abundance of smiles, two shining voices and a piano, aid materially in this week's campaign of "swallowing the blues."

There is meat and drink for hungry vandeville in every act of the bill. John is ready for another week, singing under difficulties that were brought about with a surgeon's knife when it came with the "Snark" and the idea of a dancing act, furnish a lively opener. Kathi Gutlin, a "lady" government is willing. First Lieutenant John C. Montgomery, Tenth cavalry, and the Stanley's with their shadowgraph furnish more amusement to a bill crowded with it.

ASK SHIPPERS' AID.
PHILADELPHIA, Aug. 19.—In order to forestall a threatened freight car shortage, which has existed in October, 1907, just before the panic, Eastern railroads are urging shippers everywhere to load them by promptly loading and unloading cars.

According to an official statement issued by the Pennsylvania railroad, the quantity of freight being handled is at least as large as that of the year 1907, and the roads' patrons is necessary to preclude serious congestion in the fall. The road advises shippers to have freight ready for loading when the cars are delivered, and to aid in the scheme of relief by loading each car as nearly to capacity as practicable.

ARMY OFFICERS SENT TO EUROPE TO STUDY

WASHINGTON, Aug. 19.—The war department is extending the practice it recently adopted of sending to Europe for special training a limited number of young army and field artillery officers. Captain John S. Fair, Tenth cavalry, now in the war college here, soon will be attached to a Prussian regiment; First Lieutenant E. P. Graham, Fifteenth cavalry, goes to the military riding school in Hannover, Germany; and if the Italian government is willing, First Lieutenant John C. Montgomery, Tenth cavalry, will be sent to the Italian cavalry school in Turin.

LATE MIKADO FEARED NEW ORDER OF THINGS

ST. PETERSBURG, Aug. 19.—On his way back to Japan, Prince Katsura gave out an interesting statement regarding his brief stay in Russia to a Russian newspaper.

Official letter from the mikado to the czar, but as he knew when he reached St. Petersburg that the mikado was being never delivered the letter.

The mikado is said to have stated in the letter that he was convinced from the shaping of events in China that it was best for Russia and Japan to act in close union for a long time to come.

REMOSE GNaws HEART OF YOUTHFUL SLAYER

SANTA ROSA, Aug. 19.—District Attorney said last night that 13-year-old Adam Clark, who killed his father and mother last week by putting rat poison into the coffee, will be tried at 10 o'clock in the morning.

This is the fourth day that the boy has been in jail and he is looking very pale. The district attorney said that he had a letter from the boy's mother, who said that she was very sorry for what her son had done.

TENNIS RALLIES ARE EXCITING

Large Crowd Witnesses Play-
ing at Mosswood Park
Grounds.

The exhibition in men's singles at tennis, provided by the Oakland Lawn Tennis Association at the Mosswood courts yesterday afternoon, drew a large and appreciative crowd from all sections of the bay region.

W. G. Knowlton of San Francisco was defeated by C. E. Foley by a score of 6-4, 6-2, 6-4. The games were replete with wonderful rallies and aces made on skillfully played passing shots. The appearance of Foley on the courts in Oakland caused many prominent tennis players to cross the bay for the event, among the spectators being noted the following: Miss Anita Myers, lady champion of San Francisco in singles; Mrs. H. A. Niemeyer of the team holding the women's doubles championship for the Pacific coast; Miss Anita Greenberg, Miss Bessie Culley and E. P. Finnigan, all of San Francisco.

The program for next Sunday will include a women's doubles between Miss Carmen and Svila Tarlton, the lady champions of Oakland, and a Berkeley team composed of Miss Leontine Rickard and Miss Marion Hall; also a men's doubles in which Dr. Sumner Hardy will take part. The other players will be announced later.

ASHES OF DEAD STREW PHILADELPHIA STREETS

PHILADELPHIA, Aug. 19.—Complaining that life has been made unbearable for them because the ashes of the dead are blown through their open windows and trodden under foot on the street pavements, residents in the vicinity of the Daniel Baugh Institute of anatomy have begun legal proceedings against the Jefferson Medical College, of which the institute and its crematory are parts. They allege that particles of the cremated bodies are scattered all over the city, in disregard of the sanctity of the dead.

I spent this morning sweeping out the dead," said George H. Havestick of 332 South Eleventh street, one of the complainants.

SAN JOSE HAS \$20,000 VISIT FROM FIRE FIEND

SAN JOSE, Aug. 19.—Fire, which started shortly before 3 o'clock yesterday morning and burned until the afternoon, destroyed a half-block at North San Pedro and St. James streets, burned 100 horses to death and sent half a hundred lodgers in the Torin hotel and a rooming house scurrying into the street in their night clothes. Fire came early and Haley said that his estimate of the damage will be in the neighborhood of \$20,000. The property destroyed included the horse market of W. C. Westlake, the Broad-gauge stables of Fairchild Brothers, the private stables of West & Son, butchers, the Torin hotel, and a cottage on which the last installment had been paid Saturday, less than twelve hours before the fire.

ARMORY IS RAZED.

NORTH YAKIMA, Wash., Aug. 19. The equipment of two companies of state militia was destroyed and damage estimated at \$40,000 was done by a fire which partially destroyed the warehouse of the Yakima Grocery Company.

TAKES CARNegie'S GIFT.

NEW YORK, Aug. 19.—One of the passengers listed today on the outgoing South American liner Vassari, was Dr. W. J. Holland, director of the Carnegie Museum of Pittsburgh. He is going to Buenos Ayres to present to the president of the Argentine Republic a replica of the diplomocrit, similar to those presented by Carnegie to the rulers of Germany, Austria, Russia, France and Italy.

SCROFULOUS TROUBLES

No truth is more forcibly manifested in physical life than the old saying "like begets like," for just as the offspring of healthy ancestry are blessed with pure, rich blood insuring good health, so the children of blood-tainted parentage inherit a polluted circulation which fosters a chain of scrofulous troubles. The usual signs of a scrofulous inheritance are swollen glands about the neck, weak eyes, pale, waxy complexion, sores and ulcers and general poor health. Treatment should be commenced at the first indication of Scrofula for it may get beyond control if allowed to run unchecked. S. S. S. is the very best treatment for Scrofula. It renovates the circulation and drives out all scrofulous matter and deposits. S. S. S. goes to the bottom of the trouble and removes the cause, and cures the disease. S. S. S. is made of herbs, roots, berries and is a scientific, safe remedy for young or old. Book on the blood and general advice free to all who write.

STORM KILLS TWO; DOES GREAT DAMAGE

NILES, Mich., Aug. 19.—Two men are known to be dead and property has been damaged to the extent of many thousands as the result of a terrific rain and electrical storm which struck Niles late Saturday and raged continuously for twenty-four hours.

Train service on the Michigan Central railroad to and from Chicago was interrupted by the damage done.

Herman Villwoe and Otto Feather were killed by lightning while standing in a barn. Hundreds of men, wrecking crews, section hands and railroad officials are here attempting to repair the Michigan Central yards. The track was put out of commission for 1000 feet.

Water rushed through the business streets, tearing out pavements, foundations of building and sweeping some small buildings away. Nine circus cars in the Big Four yards were among those washed away.

PTOMAINE IS BLAMED.

ROCKY FORD, Colo., Aug. 19.—After an analysis of the stomach of Roy Gustav A. Latzke, his wife and two children, all of whom died suddenly, State Chemist Ekeley announced yesterday that death was due to ptomaine poisoning. The similarity of the deaths of the Latzke family to the deaths of the wife and two children of Latzke's predecessor at the German Lutheran Church here led to the belief both had been victims of some fatal.

ALMONDS INCREASE AS RESULT OF DEMAND

SACRAMENTO, Aug. 19.—The prices asked for almonds by the California Almond Growers' association, at its meeting last Friday, brought such a large number of buyers into the field that yesterday they were again increased half a cent on all grades.

The prices are controlled by the quotations on foreign nuts, and usually are made so that they will cover the cost of foreign nuts plus freight and duty. This year, however, there has been an unusual demand for almonds, and this has caused the second increase.

IN AUTO SPEEDERS' NET.

SAN MATEO, Aug. 19.—Motorcyclist Michael Brown arrested three auto speeders in the county road yesterday—W. W. Carson of the Menlo Country Club, P. M. Hall of 110 Frederick street, San Francisco, and H. M. Barry of Santa Clara. They were ordered to appear before Magistrate H. W. Lamin at Redwood City Thursday morning.
